

PRODUCT SPECIFICATION · FOOD GRAINS

Soybean Meal

45%
crude protein min.

Product resulting from the soybean milling process, intended for the animal feed industry.

Crude protein ≥ 45.00%	Moisture ≤ 13.00%	Fiber ≤ 7.00%	Salmonella Absent / 25 g
---------------------------	----------------------	------------------	-----------------------------

Description

Product resulting from the soybean milling process

Molecular biology

Originated from genetically modified grains

Packing

Available in bulk and 50 kg raffia bags

Expiry

180 days from date of manufacture, depending on storage conditions

Application

Intended for the animal feed industry

Storage

Store in a dry place, away from light and heat

Delivery

Transported in previously inspected bulk carriers, according to GMP standards

Physical and chemical specifications

TRIAL	UNIT	LIMIT
Moisture	%	≤ 13.00
Crude protein	%	≥ 45.00
Oil	%	≥ 0.5
Ash	%	≤ 7.00
Solubility in KOH	%	≥ 80.00
Urease activity	ΔpH	≤ 0.25
Fiber	%	≤ 7.00

Microbiological specifications

TRIAL	UNIT	LIMIT
Molds and yeasts	CFU/g	1 × 10 ⁴
Salmonella sp.	—	Absent / 25 g

Packing

Bulk or 50 kg raffia bags
